

## FRATERNAL MEETINGS.

## POLYNESIAN ENCAMPMENT

NO. 1, I. O. O. F.

Meets every first and third FRIDAY of the month at 7:30 p. m., in Odd Fellows' Hall, Fort Street.

Visiting brothers cordially invited to attend.

F. M. McGREW, C.P.  
L. L. LA PIERRE, Secy.

## EXCELSIOR LODGE NO. 1, I. O. O. F.

Meets every TUESDAY evening at 7:30, in Odd Fellows' Hall, Fort street.

Visiting brothers cordially invited to attend.

F. G. NOYES, N. G.  
L. L. LA PIERRE, Secretary.

## PACIFIC REBEKAH LODGE, NO. 1, I. O. O. F.

Meets every second and fourth Thursday, at 7:30 p. m., Odd Fellows' Hall, Fort street.

Visiting Rebekahs are cordially invited to attend.

LILLIE DUNN, N. G.,  
JENNY JACOBSON, Secy.

## OLIVE BRANCH REBEKAH LODGE NO. 2, I. O. O. F.

Meets every first and third Thursday at 7:30 p. m., in Odd Fellows' Hall, Fort Street.

Visiting Rebekahs are cordially invited to attend.

MARGARET SIMONTON, N.G.,  
THORA OSS, Secretary.

## LEAHI CHAPTER NO. 2, O. E. S.

Meets every third Monday at 7:30 p. m. in the Masonic Temple, corner of Alakea and Hotel streets.

Visiting Sisters and Brethren are cordially invited to attend.

EMMALONGSTREETRICHCRABBE,  
P.W.M., Secretary.

ADELAIDE M. WEBSTER,  
Worthy Matron.

## HAWAIIAN TRIBE NO. 1, I. O. R. M.

Meets every second and fourth THURSDAY of each month, in I. O. O. F. Hall.

Visiting brothers cordially invited to attend.

T. F. MCGHEE, Sachem,  
E. V. TODD, C. of R.

## WILLIAM M'KINLEY LODGE, NO. 8, K. of P.

Meets every SATURDAY evening at 7:30 o'clock, in Harmony Hall, King Street.

Visiting brothers cordially invited to attend.

EDWIN FARMER, C. C.,  
E. A. JACOBSON, K. of R. & S.

## HONOLULU TEMPLE NO. 1, RATHBONE SISTERS.

Meets every 2nd and 4th Monday, at Knights of Pythias' Hall, King street.

All visitors cordially invited to attend.

SALLIE L. WILLIAMS, M.E.C.,  
GRACE O'BRIEN, M. of R. & C.

## LODGE LE PROGRES DE L'OCEANIE.

Meets the last Monday in each month, at 7:30 o'clock in Masonic Temple, corner Alakea and Hotel streets.

Visiting Masons cordially invited to attend.

C. J. DE ROO, Secretary.

W. R. FARRINGTON, W. M.

## HONOLULU LODGE 616, B. P. O. E.

Honolulu Lodge No. 616, B. P. O. E., will meet in their hall, on Miller and Beretania streets, every Friday evening.

By order of the E. R.

HARRY H. SIMPSON,  
Secretary.

GEO. H. ANGUS, E. R.

## COURT CAMOES, NO. 8110, A. O. F.

Meets every 2nd and 4th Tuesday of each month at 7:30 p. m. in San Antonio Hall, Vineyard street.

Visiting brothers cordially invited to attend.

A. O. ROSA, C. R.

M. C. PACHECO, F. C.

## HONOLULU AERIE 140, F. O. E.

Meets on 2nd and 4th WEDNESDAY evenings of each month at 7:30 o'clock in K. of P. Hall, King Street.

Visiting Eagles are invited to attend.

M. ROSENBERG, W. P.

H. T. MOORE, W. Secty.

## THEODORE ROOSEVELT, Camp No. 1, U. S. W. V.

Meets every first and third WEDNESDAY at Waverley Hall, at 7:30 p. m.

Visiting comrades cordially invited to attend.

PAUL SMITH, Condr.

R. H. LONG, Adjutant.

## The QUEEN

Automobile has reached a stage of perfection attempted but never accomplished by others, the result of years of careful experimenting. It is equipped with greater cylinder capacity than any car in its class and excels in Price, Power and Perfection.

## TOBACCO EXPERIMENTS ARE VERY PROMISING

Manager Blacow Tells of the Crops at Hamakua and Kau Stations--Week's Budget of News From Hilo.

HILO, October 19.—C. R. Blacow, manager of the tobacco farm at Hamakua under the Federal Experiment Station, has an interview in the Hawaii Herald relative to the work in his charge. He had just returned from Kau, where he had visited the experiment station on the lands of the Hawaiian Agricultural Co., by instructions from Director Jared G. Smith, of the main station at Honolulu.

"I can not help saying that the plants look well," Mr. Blacow remarked. "They have about a measured half acre over there that was planted on May 28, that is, the seed was planted at that time, and in six weeks the plants were developed sufficiently to set out on July 26, and now the leaves are ready for harvesting."

"Out at our station we have two and a quarter acres planted and about three-fourths of that is ready to harvest. We grow Cuban, that gives us leaves 12 inches long; Sumatra with leaves varying from 12 to 20 inches in length; Vuelta bajo with its leaves branching to a length of 33 inches and let me say that the seed from which these plants were grown came from the section of Cuba growing the most expensive tobacco in the world; Havana seed plants put out leaves not less than 16 inches long but often they grow to a length of 24 inches, while in Cuba the leaves of the same grade average but 12 inches and the plants have about 16 each. We have the Pennsylvania seed, the Comstock Spanish, and the Zimmie Spanish, all standard grades and they all do well. I say all standard grades, I should say the standard of each variety, for the Cuban is the standard of all qualities and the growers over the world aim to bring their plants to the same degree of excellence. Our tobaccos are cigar grades and not of the pipe or chewing varieties. Experiments and tests prove that a domestic tobacco that will grow on the mainland will do infinitely better in our soil for the reason that it is better adapted to the cultivation of the weed. Ordinary Hawaiian tobacco grows in some parts of the Territory to a height of ten feet, we have the Vuelta bajo plants at our station that have reached a height of 12 feet and they bear leaves 16 inches wide and 33 inches long."

"We have the Sumatra plants with 55 leaves to each and they will do well at 10,000 to the acre. Sumatra is the selected leaf for wrappers on account of its elasticity. Here in Hawaii the leaves have, not only elasticity, but a

strength that makes them more valuable. A wrapper that is without strength will break in stretching after drying in the package shipped to market, but ours is above that and, consequently, should command a higher price and while the Cuban, much on account of the label, will bring two dollars and a half a pound, we will be satisfied to let ours go at a lower price."

"Up at the Volcano House the other night I met a tobacco man from Seattle, a gentleman who knows tobacco from seed to consumer, and I gave him the samples of the different varieties we have for his opinion. He pronounced them equal to anything he had ever seen and said our Sumatra leaf should be worth four dollars and a half a pound in Seattle. He made cigars out of some of the raw leaves I had with me and what is more he smoked them to the end and pronounced the flavor and the burn excellent."

"Out our way we plant at fifteen hundred feet elevation, in Pahala the tobacco is growing well at eighteen hundred and fifty feet. I have seen it growing close to the bluff in Hamakua, so there is a wide range of elevation. I want to say this, also: Tobacco does not have to be grown under cover in this country; in Cuba they grow it that way in order to get a thin leaf, but our leaves are thin without any artificial means being adopted to make them so. Tobacco should not be planted in a location exposed to the wind for the plants would be uprooted. Out at Papaloa they planted a small area, but it failed because of the exposure."

"In my opinion the industry will grow, but I can not say that it is the industry for the small farmer, taken alone. In the States, particularly in Pennsylvania and Connecticut, most of the crops are grown from small areas by farmers who make tobacco a side industry; the same could be done here, or a man working a piece of land could increase the tobacco area a little each year and in time he could have what would make him independent."

**OHIA WOOD INDUSTRY.**  
Ten years ago or more, George Mumby, manager of the Enterprise Planning Mill of this city, while in the Hopper planning mill in Honolulu, was given a job to turn down some oak telephone pins that were too large, and as he did so he discovered that just under the coating of metallic paint the pins were rotting and in some instances worm-eaten; they looked to him as if they were made of material that would not stand the weather of this country. Shortly afterward he came to Hilo and established himself down on Front street near Minch's place and began business getting out woodwork for the carpenters and contractors.

Among the debris around the mill was a piece or two of wood which on examination appeared to be suitable for the pins. The wood proved to be ohia and he soon had his lathe in position and made a few pins as an experiment. These were turned over to the local telephone company and put into service. They proved satisfactory and he rigged up a machine capable of more work and in a short time received an order from the telephone company for ten thousand of them. That was about eight years ago and is the last order he has received from the local telephone company, as the pins are still sound and the manager says he does not think he will ever have to order any more for the reason that there seems to be no wear out to those he has and that they, and the samples given him by Mr. Mumby a few years before, have been in constant service all these years.

There are railroad ties on the Waiakea plantation cut from ohia that have been in active service for the past fifteen years ago and is the last order he has received from the local telephone company, as the pins are still sound and the manager says he does not think he will ever have to order any more for the reason that there seems to be no wear out to those he has and that they, and the samples given him by Mr. Mumby a few years before, have been in constant service all these years.

**THE FAVORITE GROTTTO.**

The success of this popular innovation was instantaneous.

It is a place where people can go for a chat or a meal and talk or eat to their heart's content. Entrancing strains of good music every evening.

The GROTTTO is open day and night and short orders, excellently cooked, are a specialty.

At the noontide merchants' lunch the sum of 25c. procures a plate of soup, two kinds of meat and plenty of vegetables, a glass of beer being served with the order.

Lunch on a breeze-swept lanai is a dream of tropic bliss that can only be realized at the FAVORITE GROTTTO.

FRED KILEY, Prop.

(You Know Him.)

Cor. Hotel and Bethel Streets.

Not every woman can afford to have a maid. Not many would want one around, anyway. But you certainly can afford to have Ayer's Hair Vigor; and most women would be greatly improved by it, too. It means so much to have long, rich, heavy hair; soft, smooth, glossy hair. And this is just the kind of hair you may have, if you wish it. If you wish all the deep, rich color of youth restored to your hair,

Ayer's Hair Vigor

will certainly satisfy you.

Do not be deceived by cheap imitations which will only disappoint you. Make sure you get AYER'S Hair Vigor.

Graevemeyer. The funeral took place from the Foreign Church, Hilo, Wednesday morning, Rev. C. E. Shields conducting the services. Mr. Zimmerman was a native of Germany and between fifty and sixty years of age.

Dr. John Holland submitted to the Board of Trade, at the meeting Friday afternoon, samples of banana spirits, or alcohol, extracted from Hilo bananas, together with a report of Edward C. Shorey, chemist of the United States Hawaii Experiment Station at Honolulu. The report shows the perfect feasibility of transforming bananas into high-proof alcohol. The sample furnished to Dr. Holland was 90 per cent. alcohol, which is the usual strength of commercial alcohol. In appearance it is as clear as crystal and has a faint aroma of the banana. It is shown that a sixty-pound bunch of bananas, when converted into alcohol, will make one gallon of proof spirits.

E. E. Olding, the genial manager of Kohala plantation, retired from that place on Friday last and was succeeded by Henry Deacon, for several years manager of Pepeekeo. Mr. Olding and his family will probably locate in Australia, from where Mrs. Olding came to Hawaii. Mr. Deacon was a manager in Kohala years ago and left there to take a position in this district. Since leaving Pepeekeo he has represented one of the fertilizer factories in this district.

At a meeting of the Hilo Teachers' Union there were forty members and seventeen visitors present, President L. C. Lyman in the chair. Officers were elected as follows: C. Swain, president; Miss Ward, vice-president; Wm. McCluskey, secretary and treasurer.

The Herald says: "The people of Hilo should strain every nerve to secure a settlement of the high school affair. The Governor is favorable to the project and so is Mr. Holloway and there seems to be no obstacle in the way in so far as the lot is concerned for the teachers have agreed that if no other place can be secured there will be room enough on the site of the Riverside School. If the young of Hilo are to receive their education where they may have the proper home influence the high school must be built."

Arrangements have been made between Inspector Chas. E. King and Sheriff Keolani for the services of the police force in the various school districts as truancy officers.

Surveyor Wright of the Government Survey Office is at present in Kau, planning the Homestead Settlement Association for Dr. L. S. Thompson and others in that district. The land in question comprises about a thousand acres now under cultivation by the Hutchinson Plantation. There are twenty applicants, each of whom will be allotted fifty acres by Land Commissioner Pratt.

Rev. Dr. A. S. Baker of Honolulu, Kona, proposes to build a new chapel and residence not far from the home of M. F. Scott at that place. The land is being provided by the Hawaiian Board which is also advancing a large part of the money for the new church.

On Monday, the ship Falls of Clyde, Malson, master, cleared for San Francisco with the final cargo of sugar of the season, as follows: Hakalan, 11,284 bags; Hilo Sugar Co., 3196 bags, and Olau, 5981. Karl T. Romie was the sole passenger.

The wedding of Oliver Akau and Miss Alice Pea was a brilliant affair, and over a hundred participated in the reception and luau tendered to the couple by Mr. and Mrs. Chas. Akau.

**MISTAKEN DIAGNOSIS.**

There are many people who have pains in the back and imagine that their kidneys are affected, while their only trouble is rheumatism of the muscles, which can be cured by a few applications of Chamberlain's Pain Balm, or by dampening a piece of flannel with the Pain Balm and binding it over the affected parts. A pain in the side or chest should be treated in the same manner and prompt relief is sure to follow. For sale by Benson, Smith & Co., Ltd., Agents for Hawaii.

There are some 400,000 German settlers in Brazil, most of whom are Brazilian subjects, but who send their children to German schools, which are maintained for the purpose of training them in German habits and a love of Germany.

## FOR SALE At Auction

Shortly at my salesroom, 557 Kaahumanu street, Honolulu.

## LAND OF KAPONO.

LOCATION—The land of Kapono is situated at Punaluu, Koolauloa, Oahu, between the lands of Puhe-emiki and Haleaha.

PATENT AND AREA—Royal Patent (Grant) 879 to L. S. Ua, and contains 39 Acres, 3 Rods, 9 Ro. Excepting kuleanas.

LEASE—Twenty acres, rice land, now under lease for 13 years from 1897, at \$300 per annum and taxes \$24, total \$324.

BUILDING—It has a large building and outhouses—sleeping quarters and storehouse for paddy. Cement threshing floor.

WATER RIGHT—It has a water right from the Waiono stream through auwai, for irrigation.

SPRING—It has a water spring of its own in center or land now unused but could be piped to house lot for domestic use.

HOUSE LOT—There is a house lot of nearly three acres in area and fronts on the belt road of this island.

BELT ROAD—The belt road cuts through the makai end of this land.

SEA BATHING—Facilities for sea bathing is excellent, being only a few feet from the makai end of land, and has a sandy bottom.

FISHERY—Fishery is free being Government land.

STEAMER SERVICE—Steamer John A. Cummins calls at Punaluu.
